6. Description	The surface disinfectant spray BG Pharma disinfects and cleans in depth washable surfaces eliminating dirt and odors. Suitable for disinfecting any washable surface.		
7. Mode of use	For applications on hard surfaces (e.g. worktops, garbage baskets, dirty laundry baskets, etc.): spray the product evenly on the surfaces until completely wet and leave in contact for at least 15 minutes for bactericidal activity, fungicide and virucida. For the control of Legionella leave in contact with the surfaces of the air conditioners for at least 60 minutes. In the case of applications on surfaces in direct contact with food, at the end of the contact time necessary to ensure effectiveness, rinse the surfaces treated with clean water. For applications on fabrics (e.g. curtains, sofas, furnishing cushions): spray the product evenly on the fabric until it is visibly moistened and leave in contact for at least 15 minutes for bactericidal, fungicidal and virucidal activity. Wait until the fabric is completely dry before reusing the sofas. Do not apply on sheets, blankets or bedding in general. Before applying test the strength of the colors on a small non-visible portion of fabric
