7. Mode of use	1. To open the device, press the center button and press the front. 2. Check that the switch is on the "OFF" position. Insert two AA batteries making sure the positive (+) and negative (-) poles are positioned as shown on the housing. 3. Before inserting the spray refill, check that the internal mechanism is in the correct position. If the mechanism is not well positioned, use a pencil or pen to fix it. Then insert the charge into the device with the spray spout facing outward. 4. Remove the device from the face before connecting it. Set the timer according to the interval chosen between sprays: 9, 18 or 36 minutes to get 15, 30 or 60 days of continuous fragrance release, respectively. A flashing light indicates that the device is running. If the light is not working, check that the batteries are correctly positioned. Close the device. After activation, the device is running and will spray after 15 seconds. If the device does not spray after this period, turn it off and repeat steps 1,2,3 and 4. When charging is empty, move the cursor and insert a new cartridge into the device according to the instructions above.
