6. Description	The product FLASH LIQUIDO BG01 is effective because it repels common mosquitoes (Culex Pipiens), tiger mosquitoes (Aedes Albopictus) and other small insects from a room of normal size for 30/45/60 nights with an electroemanator operation of about 8-10 hours per night. The use is practical because it does not need to touch the insecticide directly with your hands.				
7. Mode of use	<p>The device must be used with original spare parts. The use of other products could cause toxic fumes or fire risk The apparatus can be used by children over 8 years of age and by people whose physical, sensory or mental abilities are reduced, or with lack of experience or knowledge, provided that they have received supervision or instructions concerning the safe use of the appliance and understand the risks involved. Children should not play with braces. Cleaning and maintenance of the appliance should not be carried out by a child without the supervision of an adult. The apparatus has warm surfaces to allow evaporation of the active elements; these surfaces must not be touched during use.</p> <p>Screw the bottle in the appropriate seat obtained in the electroemanator.</p> <ul style="list-style-type: none"> - If the appliance is without a switch, insert the emitter into a socket; at the end of the period of use, disconnect the appliance from the socket. - If the apparatus is equipped with a switch, press it to activate it. The lighting of the bright LED indicates that the appliance is live and running. To switch off the appliance, simply switch the switch again without removing the appliance from the power outlet. <p>One bottle is enough for a normal sized room; if used 8 hours per night its action will free you from common mosquitoes (Culex Pipiens), tiger mosquitoes (Aedes Albopictus) and other small annoying insects for 30/45/60 nights.</p>
